

Raman Microscopy Workshop April 18, 2018 University of Calgary

| | Name | Title | Company |
|-------------|--|---|--------------------------|
| 8:30-9:00 | | Registration | |
| 9:00-9:05 | | Intro and Announcements | |
| 9:05-9:45 | Dr. Maxime Tchaya | Instrumentation and Applications of Correlative Microscopy- Raman- AFM-SNOM-SEM | WITec Corporation |
| 9:45-10:25 | Ashutosh Singh | Raman Mapping as an Effective Tool for Monitoring Doping on Heterogeneous Carbon Materials | University of Calgary |
| 10:25-10:40 | | Coffee and Refreshments | |
| 10:40-11:20 | Dr. Farbod Sharif | A Study of the Thermal Stability of Electrochemically Exfoliated Graphene Using Raman Spectroscopy | University of Calgary |
| 11:20-12:00 | Matthew Steele-MacInnis, Assistant Professor | Applications of Raman Spectroscopic Analysis of Inclusions in Minerals: Fluid, Glass and Crystalline Inclusions | University of Alberta |
| 12:00-1:00 | | Lunch & Networking | |
| 1:00-3:30 | | Instrument Demonstration | |
